SKETCH
OF
WASHINGTON IN EMBRYO,
viz.
Previous to its Survey by Major L'ENFANT,
1792.
Compiled from the rare historical researches
of
Dr JOSEPH M TONER,
who by special favor has permitted the use of his labor and materials for the publication of a grand historical map of this District now in progress by his efforts combined with the skill of
S. R. SEIBERT C.E.
1874

This sketch exhibits the exact location of Hamburgh and Carrollsburg, and the approximated metes and bounds of every estate then embraced within the grounds designated by the President.

In addition thereto the subsequent Avenues as well as several other early improvements, viz. Roads, culverts, bridges, etc. are indicated by dotted lines, and the names of some estates in the direct vicinity are given, so as to facilitate the location of present sites in their relation to former estates and thus to complete the most perfect illustration of the historical antecedents of the present topographical features of our National Capital.

1893.
Published by Authority of the
Capitol Centennial Committee.
Lawrence Gardner,
Chairman
